

## International Arts in Pharmacy Special Interest Group (SIG)

Dear Members,

We wanted to highlight an exciting upcoming event!

### **Architecture of Pharmacies: Counter Culture Exhibition**

“What should the pharmacy of the future look like?” The [Architecture of Pharmacies](#) study seeks to reimagine community pharmacy health spaces. Researchers from University College London [Dr Ranjita Dhital](#) and Joseph Cook invite you to our [Pharmacy Counter Culture](#) exhibition at [The Bromley by Bow Centre](#) in East London from 29<sup>th</sup> May – 7<sup>th</sup> June 2024. This study is funded by Pharmacy Research UK UCL East Seed Fund awarded to Dr Ranjita Dhital.

Community pharmacies are the most accessed health space we have globally. However, we know very little about how people experience pharmacy spaces. Through this event we aim to envision new possibilities for healthy, inclusive, and people-centred community pharmacies.

The community exhibition will include contributions from architects, pharmacists, researchers, pharmacy visitors, and those from diverse creative communities, including [purpleSTARS](#) artists. This exhibition is part of the [London Festival of Architecture 2024](#)

Join us at The Bromley by Bow Centre in East London from 29<sup>th</sup> May – 7<sup>th</sup> June (open to the public 11am to 5pm weekdays).

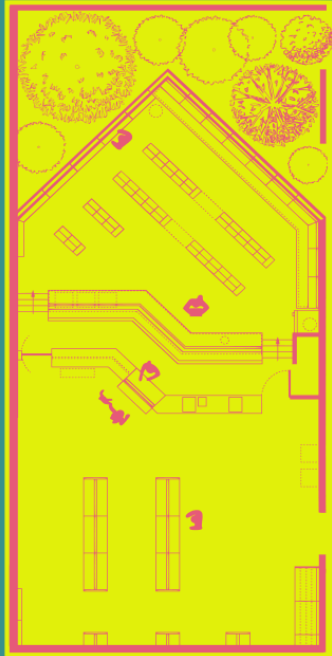

Please sign up for the creative exhibition events using this link:
